Returning your project

Some guidelines

GAME ITSELF

- I need to see the game!

- For windows, just return the game as a ZIP file.

  - No installers please!

- For exotic platforms;

  - We need to agree when I can visit school and view your projects.

  - Alternatively, if I can access emulator of your platform, that's probably ok.

OTHER STUFF..

- A text file containing:

  - Who did what?

  - External stuff used.

- Another text file containing:

  - What's the point of the game.

  - How to play.

  - Description of some hilights.

REMINDER

- Games, even simple ones, are surprisingly complex projects.

- If you haven't started yet, start working!

- The deadline is truly a <u>deadline</u>.
  - If you feel like you can't work without being in panic, consider 22.11 as your deadline.

- Talk to me about your projects!

- So far, I've heard of three game projects.
  - And none of them in very high detail =)
